

Badgers

Class News

Teacher – Mr Wills & Mrs Davies

Teaching Assistants – Mrs Farmer

Welcome to the Badgers' class page!

Here we will share some of the highlights from our second half term. We have continued where the first term left off - being incredibly busy!

Kandinsky and Riley Homework

This term we have been learning about the famous artists Wassily Kandinsky and Bridget Riley. For our homework, we

we were set a research project about the artists – something that we all very interested in. We produced a variety of wonderful projects ranging from powerpoints full of facts and quizzes, to fact files with our own artwork inspired by a combination of the two artists. We really enjoyed sharing our research with our classmates and our work now hangs proudly in our classroom.

Cinderella and Rockafella

The end of the Autumn term saw us perform our pantomime 'Cinderella and Rockafella'.

This was a tremendous success and something we all thoroughly enjoyed taking part in. Everyone had their own part to play and we all worked incredibly hard in learning our lines and all the songs. Performing to so many parents was a fantastic feeling and the comments and feedback were so positive it really made all our hard work worthwhile. The songs from the production will certainly live on with us for a long time to come.

Forces and Motion

Our topic for this term is forces and motion. In science, we started our topic by looking at the effects of water resistance and how it acts upon objects. To help aid our understanding, we undertook an experiment using playdough, which was made into different shapes, and we observed which shapes were most and least affected by water resistance. For this experiment, we paid particularly attention to fair testing and made sure that we were very careful to ensure that we kept all the variables the same. We had great fun making our shapes and testing our predictions. We now can't wait to do our next investigation into air resistance.
