Teaching Assistant – Mrs Craig & Mrs Stacey

BOOKS, BOOKS, BOOKS!

This term our literacy has been all about traditional tales. We looked really carefully at the story of The Three Little Pigs, and then we wrote our own stories based on it. We changed the characters and the houses. We have gone on to read and study lots more traditional tales and we are really improving our ability to write our own stories.

Which tale do you like best?

HOUSE BUILDING

We have been continuing to learn about materials and their properties. To link with our literacy, The Three Little Pigs, we thought about how we could test which house would be the strongest.

We had great fun building a paper, card, straw and brick house. We showed fantastic team work skills as we worked in teams to create our houses.

We found out that the brick house was the strongest house because it didn't blow down and it didn't break when we rolled a ball at it.

WHAT'S THE TIME?

We continue to work really hard to develop our skills in maths. We have been learning all about telling time. We are getting really good at using o'clock, quarter past, half past and quarter to, to help us tell the time.

We have also been learning about fractions as well as continuing to work on our addition and subtraction.

WORLD BOOK DAY!

On Thursday 2nd March we celebrated World Book Day. We were able to come in dressed as a favourite book character.

We enjoyed the book sale and we found lots of fantastic books that we were able to buy.

We also made bookmarks, word searches, posters and shared our favourite books. We had a lot of fun.

We have recently visited the library to take out new books. We looked at the blurb to help us choose which books we thought we might be interested in reading.
