

Squirrels

Class News

Teacher – Miss Woods

Teaching Assistants – Mrs Prowse and Mrs Hawkins

Squirrel class has continued to be extremely busy this half term. Here are some of the highlights... We have learnt more about the rainforest through our topic 'Jungle Explorers' and we even visited the Eden Project in Cornwall. We started the day learning all about the skills needed to be a Rainforest Ranger and how to survive in the Rainforests of the world. You can see how much we enjoyed looking at the vast array of plants in the biomes.

We found out that plants provide us with food, shelter and water. We even found out where chocolate comes from!

This information inspired our written work as well as our homework – (well done for all your brilliant creative efforts!)

In science, as part of our 'Plant Power' topic, we have been investigating water transportation. It was fascinating to observe celery, white hyacinths and carnations turning red and blue. We also used microscopes to identify different plant parts.

Lastly, we investigated seed dispersal and made our own paper helicopters to mimic sycamore seeds – we enjoyed testing them outside!

We wish you all a relaxing and enjoyable Christmas break and look forward to seeing you ready for a fresh, new and exciting term!
