## Class News

Teacher – Miss Woods  
Teaching Assistant – Mrs Prowse

Here are some of the highlights from our final half term together!

In Science, we have continued with our exciting topic on 'Rocks and Fossils'. We have been learning how fossils form and what they tell us about past life. We have also learnt about the different dinosaurs that used to occupy the land in the Jurassic age!

In literacy, we have been looking at play scripts and having a go at writing our very own based on the story of Mary Anning, a famous fossil hunter who used to live in Lyme Regis.

Our topic culminated in an exciting trip to Charmouth where we followed in Mary Anning's footsteps and went hunting for fossils on the beach. We found many belemnites and ammonites hidden along the shore.

Learning our times tables has formed the basis of our maths work over the last few weeks. We've used songs, rhymes and games to help us and we are all feeling a bit more confident now.

The great outdoor has been the inspiration for our art work this half term. We began by collecting sticks and using string to make small picture frames. We then used fabric crayons to create our own unique designs based on our topic of mountain and volcanoes. Here are some of our finished products...

What a busy year we've all had together! A really well done to everyone for working so hard. Enjoy your well-deserved summer break.
