

Stoats Class News

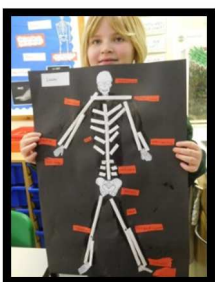

Teachers – Mrs Chapman and Mrs Loveday
Teaching Assistants – Mrs Slater and Madame Corbett

Welcome to our fourth news page. The Spring Term is nearing completion and we have not wasted one moment of it.

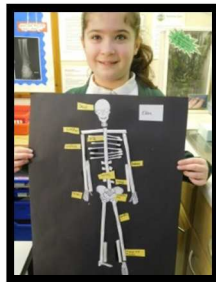

Thank you for attending our class assembly; it was lovely to have so much super support. We thoroughly enjoyed sharing our learning with you through the mediums of dance, song, drama and narration. We were very proud of our clear public speaking and hope that our enjoyment of our studies shone through. We particularly enjoyed dressing up and would like to thank you for creating our splendid costumes. We have never seen so many Pharaohs in one room!

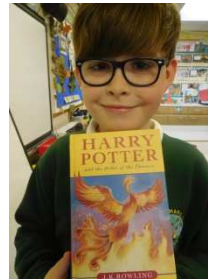

Science has been all about our bodies and we began our investigations by learning about our skeletons and muscles. We now know that there are 206 bones in an adult skeleton! The children were challenged to create their own skeleton picture using paper straws and cotton buds.

Here are
Lauren and
Ellen's
fabulous
skeletons.

Throughout the year, we have been focusing on the enjoyment of reading and each week a member of our class shares one of their favourite books. We have also been expanding the range of texts that we read and we have been completing our own reading bingo sheets. Many of us have completed six different books including: award winning texts, texts with more than two hundred pages, texts about the past and texts written by a celebrity, to name but a few.

Luke, Amy and Jarryd were keen to share their favourite books with the class.

We celebrated 'World Book Day' in style with the residents of Hogwarts (amongst other literary characters) making a guest appearance!

Thank you for continuing to support us with our reading at home. We wish you all an eggcellent Easter holiday!
